

STRATEGIC SUSTAINABILITY SERVICES

Waste Reduction Opportunity Audit

Every dollar you save in waste flows directly to your bottom line not down the drain

STRATEGICALLIANCE Sustainability Services offers a Waste Reduction Opportunity Audit. This audit is designed to provide a roadmap for short, medium and long term waste reduction opportunities. It quantifies opportunities for waste reduction in current processes and intrinsic waste streams, offering immediate solutions and longer term solutions where appropriate.

Strategic Sustainability Services uses our significant experience in manufacturing process improvement to:

- **Identify** opportunities for waste reduction
- **Quantify** opportunities for improvement in dollar terms
- **Prioritise** the opportunities for improvement
- **Propose** short, medium and long term strategies for continued improvement

In doing this, we help your organisation:

- **Reduce** operating costs
- **Comply** with and keep ahead of Government regulations
- **Capitalise** on Government subsidies
- **Enhance** your corporate image and generate positive publicity
