

SUPPLY CHAIN OPPORTUNITY AUDIT

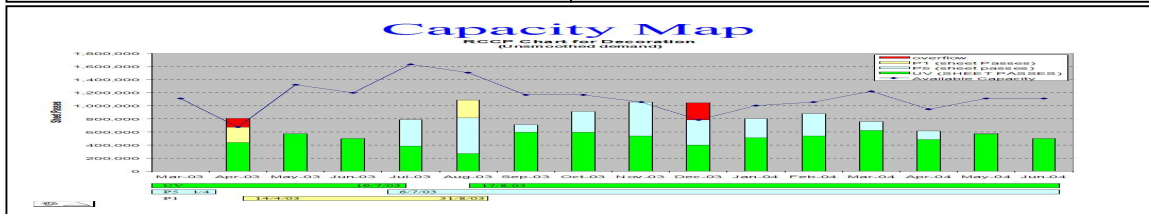

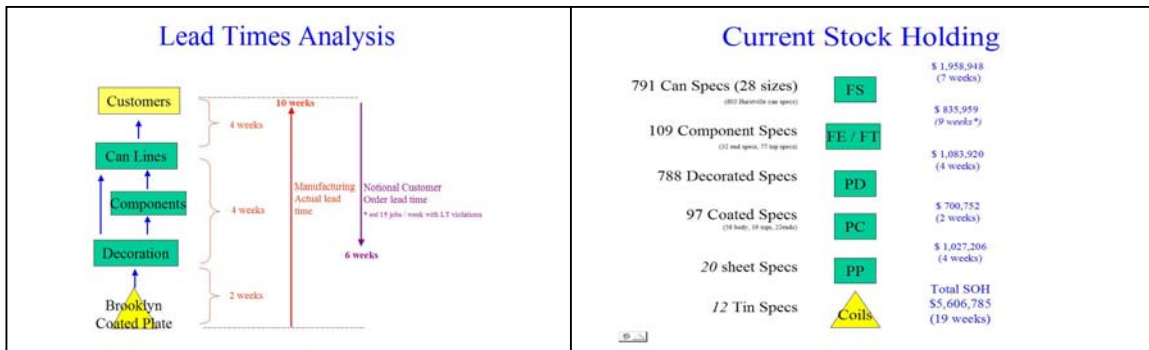

PLANNING FOR SUPPLY CHAIN MANAGEMENT IMPROVEMENT

STRATEGICALLIANCE Supply Chain Opportunity Audit maximizes the impact to your bottom line when planning for supply chain management improvement. From your suppliers, through your organization, to your customers this analysis will provide you with the roadmap to leverage maximum profit with minimal resources.

STRATEGICALLIANCE Supply Chain Opportunity Audit provides the following analysis of your supply chain

- **Identifies** opportunities for improvement.
- **Quantifies** opportunities for improvement in dollar terms.
- **Prioritises** the opportunities identified for improvement.
- **Proposes** strategies to improve opportunities.

Delivered in a logical and clear format that allows ease of understanding and dissemination of information and analysis.

Analytical tools include; Lead time analysis, Consequential Stock analysis, activity based and marginal costing methodologies and Pareto analysis in a customised framework to meet your organizational and business requirements.

STRATEGICALLIANCE Consulting Services Audits are designed to drive profit improving change through your organization. They are uniquely formulated using a simple philosophy: **Maximise sustainable profit, minimise resources required.**
